

ONE DAY STATE LEVEL SEMINER

ON

The Role of Women in Social and Political Movements in India

Organised by

Department of Political Science and Department of Sociology in Colaboration with IQAC

MAHISHADAL RAJ COLLEGE

Date : 17th January, 2020

Time : 01:00 pm

Venue : C. G Hall

OVERVIEW:

The role of women in social and political movements in India has been significant throughout history. In ancient times, Indian women played essential roles within households and were respected as mothers and wives. In the early 19th century, social reformers initiated efforts to improve women's conditions in society. Later, women themselves formed local and national organizations to fight against social evils and advocate for women's rights. Women actively participated in India's freedom struggle. Their contributions were often heroic, yet their names are not always prominently recognized. They crusaded for independence alongside men, advocating for constitutional rights and gender equality. After independence, women continued to challenge societal norms and patriarchy. They addressed issues like violence against women, gender justice, and equality. Women's organizations played a crucial role in advocating for women's rights and social change. They also played an important role in environmental movement in India.
